If You Want to Know Which Patent Medicines Are to Be Classed as Liquore, Look for the Reports of the Internal Revenue Department.

The Commissioner of Internal Revenue has decided, and justly so, that some patent medicines contain sufficient alcohol to class them as liquors. This valing has long been looked for by those who have watched conditions. To the careful observer the enormous sales achieved by some of these so-called remedles is due to some other reason than

their curative properties.

Physicians and laymen conversant with the subject bave long maintained that the demand for certain patent medicines was created by the taste for al-cohol thus acquired, and now the United States government has taken notice of this evil. Chemical tests are now being made in the government laboratories at Washington, and those so-called reme-
